

Lowering the age range at Greasley Beauvale Primary School

Surveying Parents and Carers across the community for expression of interest

Contact details: 01773 712128 Head Teacher – Mrs Michelle Bates Email – head@greasley.notts.sch.uk

An exciting prospect for Greasley Beauvale Primary School and families within the local community!

We are now surveying parents and carers associated with Greasley Beauvale Primary School and the local community to gauge the viability of lowering the age range of children accepted into school. This would be with the view to holding our own nursery provision at some point in the future.

If we were to lower our age range, to accommodate nursery age children, we would aim to provide quality provision which could be accessed by all members of the community. We have a clear rationale behind this proposed school venture and believe that a school nursery would complement our existing provision for children in our reception classes.

Survey

To best meet the needs of the community, all we need is for parents and carers locally to complete the 'Expression of Interest' survey to support school in writing a strategic and financial business plan. In turn, this would enable us to approach the Local Authority with our plans and state how we could make this a viable plan for Greasley Beauvale Primary School.
