Sarah B

Greasley Beauvale Primary School is such a warm and lovely environment for children to learn. The support from all staff is great, along with great spaces for our children to develop. The library is a great addition & staff are always looking to provide new experiences. Both of my children have attended Greasley & I would recommend to everyone.

Charlette B

"Greasley was always my first choice of school for my son, from the moment I walked through the doors it just felt right. You are instantly made to feel welcome, and the running of the school really does focus on the children's individual strengths and creating well-rounded future adults.

Jess J

The school is incredibly inclusive. They adapt to the needs of the children and are highly skilled with SEND, which means all children feel part of the community. The collaboration with parents means children's needs are always at the heart of practice and decision making.

Natalie A

Every time I come into the school for events, makes me proud that my child is in such a happy environment where she is settled and thrives. The passion from the staff shows what a wonderful school community it is. The rainbow values are clearly integrated into all aspects and the vision of the school, and I support the strengths and achievements of the school.
