

Pupil Voice

Finn and Elsa, Year 4

Greasley is a really good school and gives us a great education. It's great fun because we do lots of cool lessons where we develop endless knowledge and skills.

Morgan and Bluebell, Year 5

The Rainbow Values help us to understand ourselves and others. Greasley is a really good school to go to and we have worked hard to look after it and make it child-friendly.

Emily and Oliver, Year 6

Year on year, we have realised how the curriculum has developed and evolved to make sure that we are more prepared for the next chapter. As we are now in Year 6, we are getting ready for the next stage in our education, and we will take with us different aspects of Greasley with us.

Ellie and Bailey, Year 1

"We really like learning. Maths and phonics are fun and help us. We like being with our friends in the playground and playing safely. We like learning with our friends too!"
